

**REACH PEOPLE
WHERE THEY ARE—IN
FRONT OF THE TV.**

It is true, video and television profoundly effects us. It is also known that television is the best source to reach the masses with a message, GOOD OR BAD. People come home from work or school and the first thing they do is turn on the TV. Imagine the impact you can have if you sponsor a Christian Satellite System with 15 Adventist Channels in their home.

Satellite evangelism has no limits! Reach people in large cities, small cities or out in the country.

SATELLITE EVANGELISM

Max and Natalie Ocon have been doing various forms of evangelism since Max graduated from Amazing Facts Center of Evangelism in 2006. Immediately after AFCE Max was hired by The Hope Channel (the official network of the Seventh-day Adventist Church) and traveled the country promoting Homes of Hope, training churches and installers to use satellite evangelism to effectively reach their communities. We feel that satellite evangelism is the best method available today to reach neighbors, friends and family— to reach them right where they are, in front of their televisions.

Installing satellite system in Boseman, MT conference office.
